"Gets-It" Ends All Corns

Just As Good For Calluses. Money Back If It Fails.

Thirty seconds after you touch the corn with this liquid corn remover the itching, stinging pain of it stops, for all time.

Simple As A, B, C.

No corn, hard or soft, is too old or too deeply rooted to resist "Gets-It." Immediately it dries and shrivels, the edges loosen from the true flesh and soon you can peel it right off with your fingers as painlessly as you trim your nails.

Don't coddle corn pests. Don't nurse and pamper them. Don't cut and tear them. REMOVE them with "GETS-IT."

Costs a trifle at any drug store. Mfd. by E. Lawrence & Co., Chicago.

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruit" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful to-day saves a sick child to-morrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

How Radium Restores Health At Small Cost

The Blood is the Life. If it is active and vitalized, it circulates freely in all parts of the body, carrying nourishment and health to the entire system. If it is sluggish and congested, it circulates slowly or stagnates, and carrying little or no vitality, ill health results. Medical Science has proven that 90% of all diseases are caused by sluggish circulation.

Radium is a Blood Vitalizer. It restores blood to normal condition and circulation. Nature then builds health with it. Our Radio-Active Solar Pad contains Radium, sufficient dosage to clear up congested blood and cause a healthy, normal circulation. You wear it continuously day and night, receiving Radio-Active Rays into your body, that rebuild nerves and tissues and cause the system to throw off impurities, and you soon find your health improving. Disease cannot long exist where the blood is active, healthy and circulating freely.

We are so positive of the benefit our Radio-Active Solar Pad will produce in nearly every form of disease, that we sell it with a binding guarantee of the refund of the purchase price, if you do not decide you are benefited within a trial period of two weeks. No matter what your ailment, or how long standing, you may

TRY THIS WONDERFUL PAD AT OUR RISK.

The price is within the reach of all. Call, or write for full information and proofs.

PRINCETON PROCTOR AIDS REFORM WAVE

Many Practices Overlooked in Good Old Days Don't Go Now.

NO MORE DOGS IN ROOMS

Hazing, Music After 10, Rushes and Noted 'Flour Pictures' Are Memories Only.

Special Despatch to THE NEW YORK HERALD.

PRINCETON, Nov. 12.—Is the modern reform craze sweeping Princeton University? Another addition to the staff of Proctor "Hank" Bovie, who already had one six foot two inch right hand man for assistance, is giving cause for thought to the undergraduates. In "ye good old days" the proctor himself was thought to be perfectly able to with-stand any "criminal" tendencies on the part of the students. All this is changed, and now the authorities have at least one of their slouts on duty at all hours of the day and night.

Under the new regime the introduction of dogs into dormitory rooms or the depositing of soiled clothes upon closet floors is strictly forbidden, and "maifactors" are summoned to account for the derelictions from the revised moral code. Seniors at least can remember happy days when the favorite campus sport was to bring their dogs not only into dormitory rooms, but even to their classes. And in the past serv-ice cleaning of the rooms considered themselves fortunate to find the soiled clothes in so remote a place as the closet floor.

Time was when anxious mothers could drop in upon their sons after a hurried trip to Princeton. All this is now changed and mothers are forbidden to enter dormitory rooms after 6 P. M. as contrary to the morals code, along with all others of their sex.

Hazing Also Under Ban.

Many have also taken decided exception to the action of the proctor in a recent instance of mild hazing of freshmen by sophomores. One rule laid down for orderly first year men provides that all freshmen shall wear black socks and knickerbockers. To see if any members of the class of 1922 had dis-regarded this rule the sophomores held an examination recently outside the Freshman commons, requiring every one to turn up his trousers as he left the hall, removing all garters not of the prescribed hue. The proctor, greatly alarmed at the sight of bare legs in the new Princeton, broke up the meeting and held some of the chief offenders for examination and possible punishment.

For years students have decorated their rooms with empty bottles of the pre-Volstead era. All this is past, however, for raids are being conducted to remove these vicious influences upon campus life.

Few realized six months ago that the playing of musical instruments after ten o'clock would suddenly become "criminal." Nor could it have been predicted that freshmen would be protected to a degree that would virtually demolish college traditions which had come down for many decades and were sacred to the hearts of alumni.

Ancient Eggs Are Off List.

An intimation of the intentions of the new regime was received when that august body, the Senior Council, in full conclave announced that nothing but flour and water could be used at the famed "Flour Pictures" when, in the past, ancient eggs or overripe tomatoes had been considered the best of form.

The warning not being taken with sufficient seriousness by certain gay sophomores, who became sufficiently de-generate to hurl carefully collected vegetables, Proctor Bovie and his staff seized the offenders and bore them off to receive suspension or other penalties.

In days of old, rushes were not taboo. These, however, vanished before the growing strength of authority, which deprecated crude instincts of any kind. Resigned to this invasion of their traditional amusements, the undergraduates for the last few years have been com-forted by the thought that they still could enjoy one riotous evening at the Cane Spree. They thereby underesti-mated the increase of morality. For recently, when the 1921 Cane Spree was held, Proctor Bovie appeared and an-nounced that the Powers-that-be had decided to eradicate all traces of rough-ness in college life.

MRS. AUDITORE FACES CHARGE BY CHAUFFEUR

Forcible Entry and Barring His Family Alleged.

Abraham Mousakas, a chauffeur for whom Frank Auditore, the "millionaire stevedore," built a \$35,000 garage and home at the rear of the Auditore residence, at 139 Coleridge street, Manhat-tan Beach, obtained summonses yester-day in Coney Island Court for Mrs. Luisa Auditore, Auditore's wife, and John Fallon, described as a private de-fective and bodyguard for Mrs. Auditore. The summonses are returnable next Tuesday, and charge the defendants with committing a misdemeanor in forcibly entering Mousakas's garage and then barring him out.

Mousakas said that November 6, while he was away, and his wife had to go to a two-year-old child out for an airing, Mrs. Auditore and Fallon charged the locks on the garage. When Mrs. Mousakas returned she was told she could not enter, and when she attempted to go up to the living quarters above the garage, Fallon drew a revolver, it was alleged. Mousakas said that later he managed to get into the living apart-ments, but he has not been able to use the garage.

Auditore no longer lives in the residence, and a separation action between him and Mrs. Auditore is now pending. Mousakas said he is still in Mr. Auditore's employ.

HOTEL MEN ON WAY HERE.

From All Over Country Will Be at Exhibit This Week.

The sixth National Hotel Men's Ex-position, starting this week in the Sixty-ninth Regiment Armory, is scheduled to exceed all its predecessors in attendance and exhibits, according to its promoters. Special trains are on the way East carrying hotel men from Chicago, Omaha, Salt Lake City, San Francisco and so on. The subject of reducing costs is ex-pected to be the most important dis-cussed by the members of the associa-tion, and this most engrossing subject will be before the men attending the con-vention when it formally opens at 8 o'clock to-morrow night.

SUICIDE CLOSES BANK.

Joplin, Mo., Nov. 12.—Directors of the First National Bank of Joplin an-nounced to-day that the bank would be closed on account of the suicide at a Mexico City hotel yesterday of Amos Gilson, president of the bank.

SAYS FAMILIES ARE CONTENTED IN IDAHO

Gov. Davis Denies Reports They Are Settling on Use-less Dry Land.

FORM COMMUNITY CLUB

Resolution Adopted Thanking State for Its 'Wise Advice and Assistance.'

To THE NEW YORK HERALD:

BOISE, Idaho, Nov. 12.—Relative to the Brooklyn people on the Carey act land in Idaho, I wish to say that the report that they are on useless dry land is ridiculous. The water for irrigation and domestic use is extremely satisfac-tory.

There are seventeen houses built on

the tract by the Brooklyn people, and the crops harvested this year by the earlier settlers are extremely satisfac-tory.

I can state positively that such rumors are baseless and whoever cir-culates them is doing it for some pur-pose other than good.

Irrigated lands take the same develop-ment as any other lands to make them produce, but these people will all get substantial crops at next fall's harvest if they make the proper efforts.

One man this year, whose land lies next to the group of forty held by the Brooklyn families, threshed forty-one and seven-tenths bushels of wheat in the first crop ever raised on his land.

The caravans on the tract are pro-ceeding with vigor to get their land in shape. A community club has been organized consisting of all the settlers, both old and new, on the tract, num-bering about half a hundred families, and they are going to work as a community in raising high class products with the State cooperating scientifically with them. This community club is headed by N. A. Reynolds, one of the caravans, and committees on different activi-ties have been appointed from among the settlers.

The request for aid which you mention is new to me. We are aiding them with advice from our experts. At a com-munity meeting not long ago the fol-lowing resolution was passed and signed by the head of every family in the caravan:

"We, the members of the Scott Caravan, hearing reports that have been given to newspapers of alleged misrep-resentation of land and water supply, desire to publicly state that these re-ports were not officially authorized and that we believe there is no better farm land in the State of Idaho. We desire to publicly thank the State and its officers for their wise advice and as-sistance."

D. W. DAVIS, Governor of Idaho.

Now Is The Time to plant Bulbs outdoors

200 DOUBLE TULIPS, 4 distinct colors, all separate, for \$7.00

Take Mastin's Yeast Vitamon Tablets For That Firm Flesh "Pep"

Which Gets the Best Paying Job Easy and Economical—Results Quick

Thin, rundown folks who find that business is bad and employment is scarce should try taking two tiny yeast VITAMON tablets with their meals for a short time and watch how quickly their physical and financial condition improve.

Mastin's VITAMON tablets contain in highly concentrated form a proper dose of true yeast vitamins combined with the other health-giving Water and Oil soluble vitamins which Science says you must have to be strong, well and fully developed. If you are weak, thin, pale, generally run-down or feel lacking in brain power and ambition and want that firm flesh "pep" which gets the money, you surely need some of these precious vitamins in your system at once.

Here is a simple test you will find well worth trying: First weigh yourself and measure yourself. Next take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself again each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy. It is not only a question of how much better you look and feel, or what your friends say and think—the scales and tape measure will tell their own story.

By mixing with the food you eat, Mastin's VITAMON tablets help it to digest and supply just what your body needs to feed and nourish the shrunken tissues, the worn-out nerves, the thin blood and the starved brain. Pimples, boils and skin eruptions seem to vanish like magic under this healthful influ-ence. Mastin's VITAMON tablets will not cause gas or upset the stomach, but strengthen the diges-tive and intestinal tract and help to correct even chronic constipation. They are easy and economical to take and so quick and remarkable are the results that complete satisfaction is absolutely guaranteed or the small amount you pay for the trial will be promptly refunded.

IMPORTANT: While the amazing health-building value of Mastin's VITAMON tablets has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, they should not be used by anyone who OBJECTS to having their weight increased to normal. Be sure to remember the name Mastin's VITAMON—the original and genuine yeast-vitamin tablet—there is nothing else like it, so do not accept imitations or substitutes.

MASTIN'S VITAMON TABLETS
THE ORIGINAL AND GENUINE YEAST VITAMINE TABLET

ARE POSITIVELY GUARANTEED TO Put On Firm Flesh, Clear The Skin and Increase Energy When Taken With Every Meal, Or Money Back.

if it MASTIN'S it isn't VITAMON

WORLD POURS LIQUOR HERE THROUGH CANADA

Enormous Increase of Imports Is Noted.

TORONTO, Ontario, Nov. 12.—Despite the fact that most of Canada is "dry" (the Province of Quebec being a notable exception), imports of whiskey and liquors have enormously increased in the last two years. "The Toronto Globe" finds in the figures just made public at Ottawa evidence that Canada is being used

by the liquor manufacturers of the world as a gateway to sneak their output into the United States.

"We are, as a people, smuggling" or conniving at smuggling a million gallons a year or more of whiskey, on which Canada collects duty before it finds its way into our neighbor's back yard," says the Globe.

The value of whiskey imported in 1919, as shown by customs figures, was \$979,700; last year it was \$2,947,000. Gin imported in 1919 was valued at \$29,374; in 1921 it was \$4,174,925. Brandy imports were valued in 1919 at \$378,694 and at \$3,379,275 in 1921.

TABASCO PEOPLE SUFFER.

Severe Floods Badly Damage State's Crop of Bananas.

MEXICO CITY, Nov. 12.—The banana crop in the State of Tabasco has been damaged to the extent of more than \$500,000 and other farm products have suffered from severe floods that have just visited that State.

The plight of the people has been so serious that local newspapers have con-ducted campaigns for funds with grati-fying results.
